

A photograph of a male doctor in a white lab coat smiling as he examines a young girl's eye with a silver ophthalmoscope. The girl is looking into the device. The image is overlaid with a semi-transparent geometric pattern of overlapping triangles in shades of blue, purple, and orange.

Case Studies

Delmar Pediatrics PLLC.

Delmar Pediatrics contacted the Boley Group because they had limited email service albeit having conservative views on IT and infrastructure updates, they wanted to know what options were available to them.

We migrated their practice from Hosted Exchange with another provider who was using several third-party applications to Microsoft Office 365 with one, unified interface. Their practice went from using a slow, outdated, and expensive email provider to a fast, reliable, integrated one that costs 50% less on a monthly basis.

They now have a complete sync of Microsoft Outlook between multiple devices, web access to their documents, and access on their smart devices. The four doctors are now able to work remotely on reliable software and their 18 staff members are able to work efficiently and productively.
